

A unique Science and Nature program for children age 2 - 6 with hands-on and engaging activities included in over 25 area early learning centers!

Nature Jack is an experienced Science Teacher, Nature Camp Counselor, Organic Gardener and a self prescribed "Recycleholic" with a Masters in Education and up-to-date clearances!

NATURE JACK

Science with Nature Jack is a fun and innovative way to introduce science to young children while meeting all PA State Science Standards for Pre-Kindergarten. Nature Jack provides age-appropriate science practices such as experimenting, predicting, observing, comparing and measuring and makes the most of a child's natural curiosity!
